

FORENSIC INTERVIEWER AT TRIAL

February 21-23, 2024

Marshfield, WI

Marshfield Clinic

★ WHAT IS THIS TRAINING?

In this 3-day course, teams of prosecutors and forensic interviewers participate in a portion of a mock trial in which the prosecutor conducts a direct examination of the forensic interviewer. The course also includes several workshops of the latest research on forensic interviewing, the scope of expert testimony from a forensic interviewer, and cross examining a defense expert.

★ TESTIMONIALS

"It gives interviewers the green light to feel confident in how they explain topics during testimony. I think sometimes we know about the issues, but we may lack the green light inside of us to say I feel confident in saying this and it this way. This training provides attendees with support to know they are on the right path."
